SOLUTIONS

As a **leading pioneer in conference and event technology**, we offer **innovative products, services** and **solutions** for a wide range of sectors and applications.

Welcome to buk Solutions

buk Solutions is one of the UK's leading companies in providing technology based solutions for permanent installations, conferences, events, meetings and related applications.

We work across a wide range of public and private sectors to deliver off-the-shelf and bespoke solutions, offering a range of products for rental or purchase together with system design and integration, consultancy, and complementary services.

The range of sector applications we have delivered is extensive, from the provision of rented systems and interpretation services for international conferences and product launches to the supply of installations of bespoke discussion and recording solutions for boardrooms and council chambers, tribunal hearings and interview rooms, and educational use.

Likewise, the markets we work in are equally broad and include end user clients such as multinational businesses, central and local government, crown courts and academia, through to intermediaries including event management companies and conference organisers.

buk Solutions works with selected key partners worldwide to bring together the very best technological solutions whilst also being able to deliver on a global basis.

We're genuinely passionate about what we do and work proactively and flexibly to ensure the best solution is delivered to meet the specific needs of each of our clients.

Please contact my team to find out more and discuss your requirements.

- Wireless voting technology
- Audio visual solutions
- Consultancy
- Specialist design and technical support
- Extensive product portfolio to suit any application

Products and solutions excellence

Through our expertise and extensive product portfolio, we can provide whatever you need, whether it's a simple replacement microphone or a sophisticated, purpose-built system.

Our experience across a wide range of sectors and application areas mean that we can work with you to assess your requirements and then develop a solution that will deliver the actual benefits and outcomes you are wanting.

Product sales

If you are looking to upgrade or purchase a new system, our commitment to you is that by purchasing from BUK Solutions you will receive a quality product that perfectly meets your requirements and, above all, is reliable.

Whether you are an integrator or an end user, our sales team are on hand to support you through pre-sales planning and specification, system design, and tendering support, all the way through to a full, professional installation.

Our product range is extensive and includes:

- Microphone Discussion systems
- Simultaneous interpretation equipment
- Interpreter Training Facilities
- Voting, Interaction and audience response technology
- PA and sound systems
- Audio Visual products, integrating with existing equipment if required
- Video conferencing and Webcasting
- Digital Audio Recording (DAR)
- Assistive Listening (Hard of hearing) systems

All of our products are developed and tested under live conditions by our global equipment hire network so you can be confident that any equipment purchased from us is of the highest quality and reliability.

Of course, we also provide a complete after-sales service including comprehensive warranties, support and maintenance packages.

Design and build

Our history and vast experience gained over the last 30 years gives us the expertise required to design and build the perfect system to meet your specific requirements. The flexibility of our product portfolio means you will receive the most suitable solution using the most appropriate equipment. Whether it's for a one-off installation or for multiple locations across the UK and beyond. We can offer bespoke, customised hardware which can be fully integrated into furniture to give a premium look and finish.

Our systems design and integration expertise gives us the confidence to address your needs in the most relevant and commercially viable way.

Partner spotlight

buk Solutions is the UK's exclusive sales partner for VIQ software, the world leader in digital audio recording (DAR) and evidential logging systems.

VIQ's software complements and seamlessly integrates with our range of hearing room, interview room and courtroom products, focusing not just on audio recording, but on the secure collection of all digital media: audio, video, emails, photographs, logs, attachments, and more. See opposite for some of the applications VIQ can be used for.

Partner spotlight SANAKO

Sanako is the global leader in language teaching software and together we have developed a strategic partnership that delivers exceptional value for the customer.

We have joined forces to offer fully integrated interpreter training suites for universities and other institutions. By combining next-generation digital interpretation hardware with Sanako's market leading software, we have created a state-of-the-art interpreter teaching and practice environment.

Please contact us on 01223 411601 or email sales@buk.solutions to discuss your requirements, understand the options available and for prices or a quotation.

Applications

The following are just some of the application areas we have solutions for:

Discussion Systems – easy to use, interference-free, wired or wireless discussion systems designed for conferences, council meetings and boardrooms.

Interpretation Systems – advanced digital simultaneous interpretation equipment which can be combined with market leading recording or educational software to enhance the package.

DAR (Digital Audio Recording)

- **VIQ Hearings** – an ideal stand-alone solution for recording digital audio and/or video in disciplinary hearings, public meetings, corporate boardrooms, judges' chambers, and small courtrooms.
- **VIQ Police Interview** – provides a complete, integrated digital audio/video evidence capture and management solution for judicial agencies, law enforcement and public safety organisations.
- **VIQ Medical** – offers an integrated digital AV capture, management and collaboration solution for medical schools and associated training facilities.

Interpreter training – Our latest digital interpreting suites are fully integrated with Sanako's advanced educational software, meaning students studying interpreting have access to realistic training in real life settings.

Voting applications – our wireless voting systems integrate real-time results into presentations, bringing genuine audience participation to any event or meeting.

Our sector experience

- Regulatory and professional bodies
- Education and Universities
- Local authorities
- Courts and police
- Businesses

Rental solutions and Interpretation Services for events and conferences

Your event is important, so it is essential you can rely on the best technical equipment, interpreters, and support services to make it a success. This is backed up by a team of dedicated industry professionals who can work with you to ensure your event runs flawlessly.

We have the specialist expertise to understand your needs and provide a solution, whether it is for a business meeting, global product launch or an international convention where different languages are spoken and located in the UK or anywhere else worldwide.

Equipment and services rental

Look no further for the technical experience, equipment and services you need for your next event. buk Solutions works with a wide range of clients from production and event management companies to in-house teams and facilities managers, providing a highly flexible, responsive and dedicated service.

The range of equipment and complementary services we offer is second to none. From simple 'push-to-talk' microphone systems through to everything that is needed for a major multi-national or international conference, you can rely on our skills and experience to deliver a faultless event.

Our equipment and services offering is extensive and includes:

- Push-to-talk microphone discussion systems
- Simultaneous interpretation systems
- Wireless voting technology
- Interpreter teams and translation and transcription services
- AV and remote camera control equipment
- Delegate registration and security badging
- Audio Visual solutions
- Consultancy

Further details on these are given opposite.

Working seamlessly with our global partner network, we can support your event wherever it may take place – Europe, Americas or Asia, we can put together the resources you need.

Please contact us on 01223 411601 or email rentals@buk.solutions to discuss your next event. We are also able to offer equipment demonstrations on site or at our Cambridge demonstration room and provide a quotation or references at your request.

Consultancy support

buk Solutions' team of experienced industry professionals are able to help you define your requirements and advise on the best options and solutions, whether it is for a small meeting or an event that is taking place on a global stage.

Solutions and services

Our portfolio of equipment and services can support a wide range of different applications and needs:

Discussion systems – our push-to-talk delegate microphones are ideal for meetings where full interactive discussions take place. Featuring comprehensive microphone control, and recording and webcasting functions, both wired and wireless systems are available.

Interpretation systems – offering simultaneous interpretation, our secure wireless systems enable speakers to be heard in up to 32 languages, along with facilities for recording, external audio, hearing aids and interpreter settings management.

Wireless voting technology – empower and involve your audience using one of our audience response systems. Through sophisticated management software, real-time responses via wirelessly connected voting keypads can be instantly presented for all to see.

Interpreter teams – with many years of experience assigning teams of simultaneous interpreters, coupled with our guidance and support, technical knowledge and event experience, you can be assured that language is not a barrier.

Translation and transcription services – buk Solutions can also provide you with a full range of translation services, including translation of your event agendas, presentations and/or Minutes for your event.

Audio Visual solutions – we are able to advise on and supply the full range of AV equipment needed for your event, from sound systems, dome camera systems to video, projection, lighting recording and live streaming facilities.

Delegate registration – buk Solutions offers delegate registration and security badging equipment to ensure attendees can be checked in quickly and efficiently, whilst also providing you with detailed information for post-event analysis and follow-up.

Why choose buk Solutions?

- Using our extensive technical expertise and experience, we can guide and advise you on the most appropriate solution to meet your requirements
- Our team of professionals can work with you, from planning and installation, on-the-day support and equipment operation
- We can provide the interpreters and equipment necessary to achieve a successful multi-lingual or international event, whatever its size or complexity
- Let us support your event or conference wherever in the world it may be through our trusted global partner network
- You can be sure that our estimates and quotations come with no hidden costs or surprises

Our experience
